

Automatic Duct Fans

No on-site Wiring. *Just Plug It In!*

9000-Auto and **9008 Auto** Duct Fans are controlled by an Air Pressure Sensing Switch. The Air flow in the duct turns the fan on and off. The switch is factory mounted and wired with a 10 foot line cord.

Just plug it in!

The duct fans are designed to increase flow of heated or cooled air in the HVAC Duct.

9000-Auto

- For 6" Duct
- 110 volts .41 amps
- 240 CFM @ Free Air
- 3000 RPM
