

Fresh Air Intake Controls #FAC-1 Air Cycler

From Acme Miami

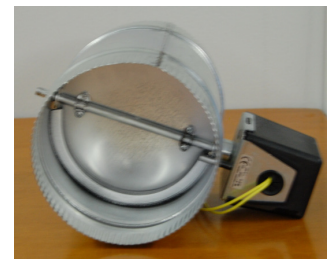

Now Available

The FAC-1 control is a digital programmable timer that turns on the air handler and opens a fresh air damper when specified. The timer can be set for whatever time period is desired. It complies with ASHRAE Standard 62.2 for Indoor Air Quality.

Install with any Acme Miami normally closed (N/C) damper.

- Mixes and circulates indoor air
- Eliminates stagnant air
- Maintains healthy indoor environment
